

Darling Ingredients Inc. Announces Pricing of Private Offering of €515 Million of Unsecured Senior Notes due 2026 by Darling Global Finance B.V.

IRVING, Texas, April 25, 2018 [/PRNewswire/](#) -- Darling Ingredients Inc. (NYSE: DAR) ("Darling" or the "Company") today announced that Darling Global Finance B.V. (the "Issuer"), an indirect, wholly-owned subsidiary of the Company incorporated under the laws of The Netherlands, has priced a private offering of €515 million in aggregate principal amount of its 3.625% unsecured senior notes due 2026 (the "Notes"). The Notes were priced at 100% of their face amount. The offering is expected to close on May 2, 2018, subject to the satisfaction of customary closing conditions.

The gross proceeds of the offering, together with borrowings under the Company's revolving credit facility, are expected to be used to refinance all of the Issuer's 4.75% Senior Notes due 2022 by cash tender offer for those notes, and, if and to the extent necessary, redemption of those notes and to pay any applicable premiums for the refinancing, to pay the commission of the initial purchasers of the Notes and to pay the other fees and expenses related to the offering.

The Notes will be offered in the United States to persons reasonably believed to be qualified institutional buyers in reliance on Rule 144A under the Securities Act of 1933, as amended (the "Securities Act"), and outside the United States to non-U.S. persons in reliance on Regulation S under the Securities Act. The Notes will not be registered under the Securities Act or any state securities laws and, unless so registered, may not be offered or sold in the United States except pursuant to an applicable exemption from the registration requirements of the Securities Act and applicable state securities laws.

This media release shall not constitute an offer to sell or the solicitation of an offer to buy the Notes, nor shall there be any offer to sell, solicitation of an offer to buy or sale of the Notes, in any state or jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such state or other jurisdiction.

About Darling

Darling Ingredients Inc. is a global developer and producer of sustainable natural ingredients from edible and inedible bio-nutrients, creating a wide range of ingredients and customized specialty solutions for customers in the pharmaceutical, food, pet food, feed, industrial, fuel, bioenergy and fertilizer industries. With operations in over 200 locations across five continents, the Company collects and transforms all aspects of animal by-product streams into useable and specialty ingredients, such as gelatin, edible fats, feed-grade fats, animal proteins and meals, plasma, pet food ingredients, organic fertilizers, yellow grease, fuel feedstocks, green energy, natural casings and hides. The Company also recovers and converts recycled oils (used cooking oil and animal fats) into valuable feed and fuel ingredients and collects and processes residual bakery products into feed ingredients. In addition, the Company provides environmental services, such as grease trap collection and disposal services to food service establishments and disposal services for waste solids from the wastewater treatment systems of industrial food processing plants.

Cautionary Statements Regarding Forward-Looking Information:

This media release contains "forward-looking" statements regarding the business operations and prospects of Darling Ingredients Inc., including its Diamond Green Diesel joint venture, and industry factors affecting it. These statements are identified by words such as "believe," "anticipate," "expect," "estimate," "intend," "could," "may," "will," "should," "planned," "potential," "continue," "momentum," "assumption," and other words referring to events that may occur in the future. These statements reflect the Company's current view of future events and are based on its assessment of, and are subject to, a variety of risks and uncertainties beyond its control, each of which could cause actual results to differ materially from those indicated in the forward-looking statements. These factors include, among others, existing and unknown future limitations on the ability of the Company's direct and indirect subsidiaries to make their cash flow available to the Company for payments on the Company's indebtedness or other purposes; global demands for bio-fuels and grain and oilseed commodities, which have exhibited volatility, and can impact the cost of feed for cattle, hogs and poultry, thus affecting available rendering feedstock and selling prices for the Company's products; reductions in raw material volumes available to the Company due to weak margins in the meat production industry as a result of higher feed costs, reduced consumer demand or other factors, reduced volume from food service establishments, or otherwise; reduced demand for animal feed; reduced finished product prices, including a decline in fat and used cooking oil finished product prices; changes to worldwide government policies relating to renewable fuels and greenhouse gas emissions that adversely affect programs like the Renewable Fuel Standards Program, low carbon fuel standards and tax credits for biofuels both in the United States and abroad; possible product recall resulting from developments relating to the discovery of unauthorized adulterations to

food or food additives; the occurrence of 2009 H1N1 flu (initially known as "Swine Flu"), highly pathogenic strains of avian influenza (collectively known as "Bird Flu"), bovine spongiform encephalopathy (or "BSE"), porcine epidemic diarrhea ("PED") or other diseases associated with animal origin in the United States or elsewhere; unanticipated costs and/or reductions in raw material volumes related to the Company's compliance with the existing or unforeseen new U.S. or foreign (including, without limitation, China) regulations affecting the industries in which the Company operates or its value added products (including new or modified animal feed, Bird Flu, PED or BSE or similar or unanticipated regulations); risks associated with the renewable diesel plant in Norco, Louisiana owned and operated by a joint venture between the Company and Valero Energy Corporation, including possible unanticipated operating disruptions and issues related to the announced expansion project; difficulties or a significant disruption in our information systems or failure to implement new systems and software successfully, including our ongoing enterprise resource planning project; risks relating to possible third party claims of intellectual property infringement; increased contributions to the Company's pension and benefit plans, including multiemployer and employer-sponsored defined benefit pension plans as required by legislation, regulation or other applicable U.S. or foreign law or resulting from a U.S. mass withdrawal event; bad debt write-offs; loss of or failure to obtain necessary permits and registrations; continued or escalated conflict in the Middle East, North Korea, Ukraine or elsewhere; uncertainty regarding the likely exit of the U.K. from the European Union; and/or unfavorable export or import markets. These factors, coupled with volatile prices for natural gas and diesel fuel, climate conditions, currency exchange fluctuations, general performance of the U.S. and global economies, disturbances in world financial, credit, commodities and stock markets, and any decline in consumer confidence and discretionary spending, including the inability of consumers and companies to obtain credit due to lack of liquidity in the financial markets, among others, could negatively impact the Company's results of operations. Among other things, future profitability may be affected by the Company's ability to grow its business, which faces competition from companies that may have substantially greater resources than the Company. Other risks and uncertainties regarding the Company, its business and the industries in which it operates are referenced from time to time in the Company's filings with the Securities and Exchange Commission. The Company is under no obligation to (and expressly disclaims any such obligation to) update or alter its forward-looking statements whether as a result of changes in circumstances, new events or otherwise.
